Do you perform rodent surgery?

Do you aim for surgical success with  
best possible animal welfare  
outcomes?

Do you want to implement good  
surgical practice to improve  
outcome and validity of your study?

Do you face the challenge to  
implement good surgical practice  
into rodent surgery due to the  
specific (micro)surgical setting?

Then join us for a day on good  
surgical practice for rodent surgery!

This one-day course aims to provide  
step by step guidance on the key  
principles of good surgical practice  
and how to implement them into  
your daily surgical routine.  
All techniques will be introduced  
and demonstrated – followed by  
hand-on training at different skill-  
stations.
