WHO Air Quality Guidelines 2021: a global challenge !

Professor Nino Künzli, MD, PhD, MPH - Swiss TPH

Nino Künzli, who served on the WHO Guideline Development Group from 2016 to 2021, will summarize the rational and methodologies of these guidelines. He also addresses the gap between ambient air pollution science and policy from a global health perspective and the local and international policy challenges.

This presentation validates 2 credits in Prevention and Public Health
