

Submerged Prehistoric Landscapes

From 24 to 28 August 2026

Nautica Bay Hotel, Porto Cheli, Greece

“Morning sessions were followed by fieldtrips in different submerged archaeological sites, where we had the chance to observe, apply and discuss what we have learnt.”

COURSE LEADERS

Dr. Julien Beck, Archaeology, University of Geneva

Dr. Dimitris Sakellariou, Hellenic Centre for Marine Research

TARGET AUDIENCE

Master's students, Ph.D. candidates, researchers and practitioners fascinated by marine geosciences and archaeology.

TUITION FEES

CHF 750*

·Free full-board accommodation and airport transfer included!

·5 nights, shared rooms for 2-3 persons.

*Possibility to pay an extra fee for a private room.

COURSE DESCRIPTION

Attention graduate students in archaeology and geology! Dive into a unique opportunity with the University of Geneva's Terra Submersa summer school.

Join us in Porto Cheli, Greece, for an immersive experience focusing on Continental Shelf Prehistoric Research (CSPR). Explore the intersection of marine geosciences and archaeology, unraveling the mysteries of our ancestors' interaction with a dynamically changing environment.

Gain hands-on experience with marine geophysical methodologies, delve into paleoclimate and sea-level changes, and connect these insights to coastal prehistory.

Don't miss this chance to expand your knowledge and skills in a multidisciplinary scientific field!
