

# Strategic Foresight Summer School: Navigating Uncertainty for Decision-Makers

From 29 June to 3 July 2026

University of Geneva

*“The future isn’t predicted  
— it’s explored, imagined,  
and shaped.”*

## COURSE LEADERS

Dr. Ewa Lombard

LUCID Lab, University of Geneva & member of the WEF Global Foresight Network

Dr. Alexandre Hedjazi

Institute for Environmental Sciences, University of Geneva

## TARGET AUDIENCE

Master's students, PhD candidates, public sector practitioners, and junior professionals from all walks of life who need to think systematically about futures in their work – from healthcare to education, from sustainability to technology.

## TUITION FEES

Junior professionals 1,100 CHF

External students 900 CHF

UNIGE students 250 CHF

## COURSE DESCRIPTION

Join an intensive five-day strategic foresight workshop and learn how to navigate uncertainty and shape possible futures. Through hands-on work on a real Geneva-based challenge – resilient cities – you will master professional foresight tools applicable to any complex, long-term strategic question.

In a world of rapid technological, social, and environmental change, traditional planning no longer works. Strategic foresight equips you to explore multiple plausible futures, develop robust strategies, and make better long-term decisions today.

This summer school is ideal for students and professionals seeking practical skills in futures thinking, scenario planning, and strategic decision-making. No prior foresight experience required – just curiosity and a willingness to engage with uncertainty.
