

Centre of Research on Skeletal Muscle and Movement

3rd SYMPOSIUM

DATE

Friday,
October 16th, 2026

TIME

13h30 – 17h00

LOCATION

Auditoire Paul Boymond (CMU)
2ème étage,
Bâtiment B
Rue Michel-Servet, CH-1211 Genève 4

PROGRAMME

- **13h15** Opening
- **13h35** **Keynote lecture by Prof. Kaat Desloovere**
(Research Group for Neurorehabilitation, Leuven, Belgium)
Longitudinal multidimensional muscle imaging to characterize muscle quantity and quality in growing children with cerebral palsy
- **14h35** Junior Flash Talks
- **15h00** Coffee Break
- **15h30** **Pr Maud Frieden**
(Department of Cell Physiology and Metabolism, Unige)
The multifaceted roles of STIM1 in myogenesis
- **16h00** **Dr Yves Dupertuis**
(Clinical Nutrition, Department of Gastroenterology, Hepatology and Nutrition, HUG)
Effects of fecal microbiota transplantation from cachectic and non-cachectic pancreatic cancer patients on germ-free mice: The EXTRA Study
- **16h30** **Pr Charna Dibner**
(Department of Surgery, HUG & Department of Cell Physiology and Metabolism, Unige)
Synchronizing to combat diabetes: Circadian dysregulation of pro-inflammatory landscape in insulin resistant skeletal muscle in humans
- **17h00** Concluding remarks
